#### **QST Lite Login Screen**

When you start the application, a login screen will appear with fields to enter username and password.

	<b>~~7</b>
	Cuick Screen Trading
	Username
	Password
	Language English Y
	OE provider QOR V
	Remember my Password       Load settings from server       Paper Trading
	Login
	Problems using this app? Clear the cache
Copyright	t 2010 - 2017 Computer Voice Systems, Inc. All rights reserved.
	Version Number 0.2.369
_	

You have a checkbox, enabled by default, called **Load settings from server**.

If set to **On**, it load the configurations you have saved on previous sessions, either on an iPhone or other platforms with the application installed, from the *server*.

If it is switched **Off**, you will load your settings from your *device* locally.

You can also enable/disable the **Paper Trading** functionality before log in the application. The option is disabled by default. Paper Trading is a simulated trading process in which would-be investors can practice investing without committing real money.

If your distribution gives you access to more than one Order Entry provider, you can expand the list of OE Providers and change your Order Entry Provider.

Language selection is also available from the start under Language drop down list.

## **Entering and viewing contracts on QST Lite**

After you log in, you are automatically redirected to the **Fixed Quotes Pages** section. The **Fixed Quotes Pages** module allows one to follow real-time quotes for a fixed set of instruments.

As its name suggests, this selection of products cannot be altered in any way (e.g. by adding or removing quotes). If you are looking for a module that allows such customizations, as well as possessing other extended capabilities, please use a **Quote Monitor** frame instead.

A table with a simple header, offering real-time (or delayed) market highlights for the selected category.

Some of the rows will contain quotes, while others – the titled rows – are designated to separate related contracts (or categories, if we are referring to the **Market Overview** tab).

From here you have access for Charts, Options Chain, Price Ladder and Order Entry Actions for each contract.

⊾ 👬 🗎 MAR	Sell 360^2 (37)	360^4 (527) виу	360^2 (1)	-1^2

# **Quotes Monitor in QST Lite**

### Tabs

Basically, each Quotes Monitor consists of one or more tables (if more are present, use the tabs at the top to switch between tables). You can Rename or Delete a table by right clicking on the specified tab.

### Rows

Each **row** will either:

- be empty,
- host a **title** or
- display information (most likely a quote).

For example, click on an empty **Contract** cell to start typing in a contract, such as ZC, select the desired trading month, then hit **Enter** to submit.

From here you have access for Charts, Options Chain, Price Ladder, Contract Details, Request Quote and Order Entry Actions for each contract. Right clicking on contract's name offers you a set of actions for this specific Contract. Left and Right Click on the Last Price will offer you the possibility to Trade, Order Ticket Dialog will open.

An order can be placed from the Quotes Monitor frame by left or right-clicking one of the Last / Bid / Ask columns (tip: use these columns to place orders from within any frame that

Contr	act		Last	N	et Change	Net Chan	High
ZCH18	٩	Syr	nbol Search		^6	-0.48 %	362^0
		Ca	lendar Strip				
		Ch	art				
	${\mathbb F}^{*}$	Ор	otions				
	目	Pri	ce Ladder				
	<b>(</b> )	Co	ntract Details				
	\$	Re	quest Quote				

shows them.

# Columns

**Columns** divide each row into cells that classify the information. You can edit the visible rows and order from Columns Tab Section.

# **Properties**

The Quotes Monitor Properties dialog provides access to change any Quotes Monitor setting.

# Symbol Search in QST Lite

The **Contract Lookup Dialog** is used to obtain a contract or a list of contracts and use them in a module. The functionality extends beyond the scope of futures only (it concerns other instruments as well).

The first thing you need to decide when you are starting to search for a symbol, is the **Contract type**. **Contract Lookup Dialog** looks different for each Contract Type. It is similar for **Futures** and **Options**, the only difference is that for Options, you have two more sections with **Chains** and **Strikes** (**Put** and **Call**).

Using the **Symbol Search** field, you can search for a contract by its name or by the symbol. Take a look at the examples in the right side.

	1	
Ok Cancel		

You can also search for different sessions: Pit-Traded, Composite and Electronic.

QST LITE COPYRIGHT 2011 – 2018 COMPUTER VOICE SYSTEMS INC. ALL RIGHTS RESERVED In the first 2 examples all sessions are selected and in the last one we are searching for contracts in the Composite that have the word "soybean" in their name.

Applying the filters presented above will help you to reduce the number of the contracts in the Filtered Contracts list and will help you to find the exact symbol / contract you are searching for.

One of the last steps is to select the symbol from the Filtered Contracts list and choose the **Month** and the **Year** from the Available Month and Year fields. The available months are shown with bolded letters.

It is important to mention, that you can select one contract or multiple contracts depending on the module you are in. In some modules you work with one contract a time (for example in Options Chain), in others you can have many contracts on the screen (for example in Quotes Monitior).

If you are in a module that works with only **one contract** at a time, select the Symbol, a Month, a Year and then press **Ok**.

If you are in a module that works with **multiple contracts**, you have to select a symbol or a list of symbols, then a month or a list of months and, at last, a year or a list of years. After this, you need to press one of the **Insert** buttons from the right side of the Month and Year sections and all the contracts you found will be added to the Lookup Result list, located at the right side of the dialog. This step is optional (instead, you could just press Ok right away). It is useful to employ these buttons in case you want to change the order of the contracts (before adding them to the frame) or if you want to browse another class of instruments (e.g. switch to Options), yet still retain the already selected contracts.

The last step is hit the **Ok** button and the contracts will be added to the current frame.

#### **Searching For Options**

In order to search for an option contract, you need to select the symbol, month and year of the contract first. Before finishing the search, you also need to choose the the option style from the **Chains** section (e.g. American, European, etc...), **Put** or **Call** and the **Strikes** for the previously selected month or serials (in our example X for November).

Futures Lookup

VCN - E-mini Cold(Electronic)		22 2022	1000	

#### **Searching For Strategies**

In order to search for strategies, you need to follow these steps:

1. Select Strategies for Contract type.

2. In the Strategies that start with: field, type the symbol of the first contract in strategy.

3. Check / uncheck the following filters, depending on your needs: **Show Futures Strategies** and / or **Options Strategies**.

4. Press the **Get Strategies** button or hit **Enter** on your keyboard.

5. Select the strategies you need from the left side of the dialog, hit **Ok** and the contracts will be added to your current frame.

It is important to mention, that you can select one contract or multiple contracts depending on the module you are in. In some modules you work with one contract, in others you can have many contracts.

Before pressing the **Ok** button, you can also add your contracts - by pressing one of the **Insert** buttons from the center of the frame - to the Lookup Result list at the right side of the dialog. This would be useful, if you want to modify the order of the contracts before adding them to your current frame or if you need to add in one step other contract types to your frame too.

## **Charts in QST Lite**

In order to enter the Charts section, press the Chart tab.

A chart displays historical data for futures, options and spreads in a graphical format. There are various ways in which the data may be represented. Here is an example of a chart:

The new way of interacting with the chart allows the user to constantly inspect the bars, while hovering the chart with the mouse and also dragging it, even into the future. Inspecting the bars is always active on mouse moved.

#### **Charts Properties**

#### **Charts Indicators**

### **News in QST Lite**

In the "News" module there are three sections:

- In the top of the news frame there are all the news grouped by categories. Every category is in a new tab. In the figure below there are shown the following categories: GENERAL, ENERGY, FINANCIAL, METALS, STOCKS, ECONOMY, COMME NTS, GRAIN, CURRENCY, FOOD, SUGAR, WEATHER, COCOA, OILSEEDS, COFFEE, M EAT, RUBBER, RICE, FED, TECHNICAL, ANALYSIS, FIBER, FORESTRY, FLASH, TREASU RY, USDA, SHIPPING, TOP and OIL. The news are decreasingly ordered by time the last ones are in the top. The order can be changed by single click on the table header named "Timestamp".
- **2.** The second section in the center of the news frame contains the content of the selected news.
- **3.** The third section in the bottom of the news frame contains a list of all the news, the same news that are in the first section, but these are not grouped by categories on different tabs. These are also ordered by time the latest ones are in the top.

# **Setting up Alarms in QST Lite**

Alarms notify the user when a certain price limit is reached.

If the last price for the selected contract has reached the price value set for the alarm or is in the range described by the condition set for the alarm, the alarm will be triggered. You can write the contract by typing or choose it from Symbol Search by single click on the button from the right of contract field. Then, enter the value of the price for the alarm. Use the additional checkboxes to customize the alarm's condition.

bled	Contract	Condition	Price	Message				
true		Last >=	2832.50	Sell All				
	Alarm		_		_			
	Sell A Last tr	। ade for ESH18।	is 2833.00					
		1	Disable Dism	niss				
					_			
	Remove Alarm	Edit Alarm	Enable all	Disable all alarr	ns Enable	Disable	Remove all alarms	

You can Add/Edit/Remove Alarms in the Alarm Tab, under Tools Tab.

#### **Order Ticket in QST Lite**

This is the form that allows the user to place orders. Orders can be placed by editing the required fields. The "Quick Entry" bar can be used to edit the fields. To place an order using the "Quick Entry" bar, simply type the account, B or S (Buy or Sell), the quantity, the contract symbol, the strike value, the price and type of the order

re you sure you want to place the Account 16021@PTS - [TC16] BITEA, AD	e following o	rder?

#### **Account Information in QST Lite**

Margin Requirements, E time. If your order or po to display your current	Refi Excess Funds and Non- osition status has chang margin requirements update in	resh Applied Commissions are not updated in real- ged, you should click the refresh button above and non-applied commissions. Bolded values real-time.	
Current Initial Margin	\$5,555.00	Current Maintenance Margin	\$5,050.00
Current Initial Margin incl. Orders	\$5,555.00	Current Maintenance Margin inlc. Orders	\$5,050.00
Start Of Day Account Balance	\$134,179.15	Open Trade Equity	\$7,337.50
Intraday Commissions Applied	\$0.00	Total Account Equity	\$141,516.65
Intraday Fees Applied	\$0.00	Long Option Value	\$0.00
Intraday Cash In/Out	\$0.00	Short Option Value	\$0.00
Gross Futures Profit/Loss	\$0.00	Net Option Value	\$0.00
Long Option Premium	(\$0.00)	Securities On Deposit	\$0.00
Short Option Premium	\$0.00	Net Liquidation Value	\$141,516.65
Account Balance	\$134,179.15	Purchasing Power	\$135,849.15

This frame presents the balance for the selected account. In the left column of the table, in the first row, the user must select the account for which the information should be displayed. The information displayed may depend on your Order Entry Provider. The rows in the left column display the following information:

- "Current Initial Margin" or the Initial Margin Requirement for your existing positions

- "Current Maintenance Margin" or Maintenance Margin Requirement for your existing positions

- "Long Option Value" or The sum of all values for all long option positions

- "Start-of-Day Account Balance" or Cash balance at the end of the previous day

- "Start-of-Day Total Open Trade Equity" or Gain/Loss on open positions at the end of the previous day

- "Securities on Deposit" or Treasury bills and bonds on deposit in the account

- "Excess Funds" or the difference between Net Liquidation Value and (Current Initial Margin + Unfilled Initial Margin)

In the right column, the following information is displayed:

- "Unfilled Initial Margin" or Initial Margin Required if your working orders are filled;

- "Unfilled Maintenance Margin" or Maintenance margin requirement if your working orders are filled;

- "Short Option Value" or the sum of the values of all short option positions;

- "MTM Ending Account Balance" or Market To Market Ending cash balance;

- "**MTM Total Open Trade Equity**" or the Market To Market sum of all unrealized profit/loss of all futures positions;

- "**MTM Total Account Equity**" or the Market To Market sum of (Account Balance + Total Open Trade Equity);

- "Net Option Value" or the difference between Long Option Value and Short Option Value;

- "**Net Liquidation Value**" or the sum of MTM Total Account Equity, Net Option Value and Securities on Deposit.

#### **Orders and Positions in QST Lite**

"Orders & Positions" shows you all your orders and positions and their status grouped by net positions.

There are eight filters in the form of checkboxes you can use. By checking or uncheck them, you can choose to show/hide fill positions, open positions, working orders, rejected orders, cancelled orders, cancel/replaced orders, parked orders or suspended orders.

#### **Price Ladder in QST Lite**

The **Price Ladder** is a list of buy and sell orders, organized by contiguous price levels and updated to reflect real-time market activity (unless real-time access is provisioned by your subscription for the instrument loaded in the frame, no data will be shown). While the best bid and best ask are part of the so-called "top of market", these along with all other bids and offers that exist in the market are part of the "depth of market".

Order Entry Actions are available if there is a valid Order Entry Connection.

#### **Options Chain in QST Lite**

In the "**Option Chain**" frame are shown the **futures** and the **options** for a given contract. Basically the "**Options Chain**" frame consists of 2 tables:

- Futures table - contains information related to the future contract

- Options tables - contains information relates to the option contracts for a given future contract

The "**Options Chain**" tables are organized in tabs corresponding to the contract months. An options table is symmetrical, with Calls on the left side and Puts on the right side. The Strike column is in the middle and the option contracts are organized by the strike price in ascending order, from top to bottom.
